

# Claim Check

## your R&D tax relief claims.

An expert look under the surface of an existing claim to expose any inherent risks and opportunities.

### WHAT IS IT?

Already claiming R&D tax relief? Congratulations! But are you sure you're getting everything you're entitled to?

#### GET AN EXPERT OPINION FROM VISIATIV-UK.

We'll take a look under the surface of your claim and give you an honest opinion on:

- ✓ Is your claim robust?
- ✓ Would it stand up to HMRC scrutiny?
- ✓ Has anything been missed?
- ✓ Are you putting your company at risk by submitting a claim that fails to take into account the changing technical environment?

### WHAT DO YOU GET?

VISIATIV will perform a desk-based review of existing claim materials, assess the merits of the claim and any inherent risks with a view to mitigating those risks before they escalate into an HMRC enquiry.

You will receive a detailed risk assurance report, compiled by one of our industry experts with experience in your field.

#### THE REPORT WILL COVER KEY AREAS, INCLUDING:

- ✓ Your claim compared to our extensive experience (comparing technology sector, company size and location, and financial indicators, such as turnover)
- ✓ A review of any risks associated with the technical narrative (for example, failure to represent the technological baseline and inclusion of routine work that does not support R&D)
- ✓ The presentation of risk associated with the costs compiled (for example, errors in the treatment of enhancement rates, inclusion of excessive costs and misalignment with your financial statements)
- ✓ Opportunities relating to missed expenditure or areas of under-claiming.

#### About VISIATIV

Visiativ is a professional services and consulting business, dedicated to helping UK companies accelerate and fund their innovation and digital adoption strategies. We enable innovation for our clients through a combination of funding, technology and digital adoption products and services, empowering employees and transforming businesses.
