

Grant funding

Grant funding aims to help businesses accelerate their ambition and realise their vision – helping start-ups grow or supporting existing businesses scale-up.

As a UK company, you can tap into a huge range of grants and subsidies. These vary depending on the size of your company, what stage it's at, your industry sector and location.

VISIATIV provides an end-to-end grants consultancy service, which includes writing and submitting grant applications, advising on the potential eligibility of your projects and supporting you in the development of appropriately costed project plans.

THIS INCLUDES:

1. Profiling your business and the potential eligibility of your projects.
2. Identifying the various opportunities available to you, mapping out your requirements, alongside the benefits and potential impacts on your business.
3. Writing and submitting the grant applications, to ensure you stand the best chance of success to be awarded the funds to accelerate your innovation.

OUR FOCUS:

R&D Grants – through Innovate UK, we help companies with a game-changing, innovative product or process achieve grant funding to deliver a paradigm shift within their sector.

Regional Growth Fund (RGF) and Regional Selective Assistance (RSA) – through our work with Local Enterprise Partnerships (LEPs) and Scottish Enterprise (SE), we support companies that aim to safeguard and/or create jobs within their local area.

EU Grants – through Horizon 2020, we support SMEs in their applications for the EIC Pilot to enable their innovative to reach its commercial potential.

INTERNATIONAL SUPPORT:

Our group experience in the UK and overseas means we have access to a broad range of international partners who could provide support to your business, depending on your strategic objectives and company structure.

About VISIATIV

Visiativ is a professional services and consulting business, dedicated to helping UK companies accelerate and fund their innovation and digital adoption strategies. We enable innovation for our clients through a combination of funding, technology and digital adoption products and services, empowering employees and transforming businesses.
